

The Notification of Chinese Spring Festival Holidays in 2023

To:

All TAICENN valuable Partners & Customers

Date:

12th- December- 2022

Dear valuable Partners, Customers & Suppliers:

Thank you very much for your cooperation with TAICENN Company in the year 2022.

2022, a challenging but smooth year, is finally coming to an end. The epidemic control policy has still been affecting lots of un-certainties on our supply and delivery in China. The global economic situation is not so optimistic. So, a lot of plans and arrangements still cannot be realized, including fairs, business travels, project implements, and lots of projects have to be postponed or cancelled. However, the Chinese epidemic policy is more and more open now. We can foresee that the real "Spring" is coming, and everything will return to normal again. At that time, we expect a stronger and more powerful business relationship together.

Our company's Spring Festival Holiday plan will start from **18th Jan. 2023** to **29th Jan. 2023**, a total of **12** days. TAICENN will return and start working on **30th Jan. 2023**.

Therefore, we strongly suggest you to arrange your purchase order plan properly before our CNY festival holidays so that we can provide you timely service and support for your projects. During the CNY holiday period, our sales & support team promise to keep the same service to you.

Thank for your understanding and coordination.

Shenzhen TAICENN Technology Co., Limited
